

South African Computer Journal

Volume 31 Number 2, December 2019

ISSN 1015-7999 (print)

ISSN 2313-7835 (online)

A publication of the South African Institute of Computer Scientists and Information Technologists

Open Access: <http://sacj.cs.uct.ac.za>

CONTENTS

Editorial: Promoting African scholarship	vii
Philip Machanick	
Guest editorial: SAICSIT 2018 special issue	x
Bertram Haskins and Johan van Niekerk	
SAICSIT 2018 extended papers	
Context-aware technology public discourses and (un)-informed use: The case of users in a developing country	1
A.A. Barrett and M. Mathee	
A method for measuring verb similarity for two closely related languages with application to Zulu and Xhosa	34
Z. Mahlaza and C. Maria Keet	
A functional ontology for information systems	57
Y.M. Motara and K. van der Schyff	
Design and evaluation of bulk data transfer extensions for the NComms framework	77
S. Pennefather, K. Bradshaw and B. Irwin	
Applying theories for using non-monetary incentives for citizens to participate in crowd-sensing projects	99
B. Scholtz and C. Mloza-Banda	
Mobile enterprise application adoption: A South African insurance study	117
H. Knoesen and L.F. Seymour	
Reviewed papers	
Leveraging intrinsic resources for the protection of health information assets	150
K. Kativu and D. Pottas	

South African Computer Journal

Improving functional density of time-critical applications using hardware-based
dynamic reconfiguration and bitstream specialisation162
R. le Roux, G. van Schoor, and P. van Vuuren

The design and implementation of a robust scheme to combat the effect of malicious
nodes in cognitive radio ad hoc networks 178
S.S. Mapunya and M. Velempini

Letters to the editor

SAICSIT papers in the ACM-DL 195
S. Gruner
